A detailed and practical guide to the law of mortgages in Australia.

This ready reference book is written by two highly experienced mortgage law practitioners and guides the busy solicitor, barrister and in-house counsel through the essential elements of real property mortgage law in Australia.

The contents of the second edition has been revised and updated to take into account the legislative and case law developments since the first edition was published in 2008.

The contents of the book are structured to flow intuitively in accord with the practical steps required in actual practice. The emphasis in the text is on how to approach real problems in the depth required to deal with the vast majority of cases while providing valuable guidance for further enquiry for more rare factual scenarios.

Topics that dominate mortgage enforcement, such as statutory unjustness defences and External Dispute Resolution complaints are given extensive treatment.
